### Report of Principal and School Improvement Council

The 2008-2009 school year has seen many challenges and successes for Indian Land Middle School. Our primary focus continues to be on providing a challenging curriculum for all student learners while providing a substantive program that exposes students to various activities. This year as a school we have been able to structure our day so that students receive direct instruction in all four core academic areas daily and provided new incentives to students for engaging in reading activities; we provided intense work with teachers on using data to guide classroom instruction as well as began the process to evaluate our school improvement plans. All teachers continue to provide additional assistance via email, webpage, small group tutoring, and other additional support. Our school based leadership team continues to work on strategies to raise rigor in the classroom, encourage student participation, as well as provide a stronger curriculum. This year, a new department structure was implemented to facilitate teacher collaboration and uniform planning for courses and grade levels. The addition of an Instructional Facilitator has assisted with the implementation of the Keeping Learning on Track program offered by the State Department of Education for which ILMS serves as a pilot expansion site. Several staff members have attended the SCMSA summer institute to learn more about the Schools to Watch implementation process as well as the SCMSA Annual Conference to learn more about programs and projects being offered at middle schools around our state. Parental involvement continues to be a major focus of our school. This year, we created our new PTA as well as our first SIC group. These bodies have hosted parent information seminars for parenting skills, provided numerous opportunities for students to engage in social activities as well as provide incentives for student learning. Our community continues to support our school with donations of time, materials, and ideas. While we have seen some improvement in our overall scores, we continue to focus on raising rigor in our classrooms and supporting those students who continue to need additional assistance by providing a tutoring center as well as mentors. We continue to examine our data and information about student performance to drive our motivation to continue to provide a challenging curriculum in which students are learning and growing daily. David D. McDonald, Principal; Lisa Hall, School Improvement Council Chairperson
